

LUKE VAN MYNUS —
SHAPES, LINES & BOLD SIGNS

hey!

I'm Luke, a graphic designer.

I use shapes, lines, and bold signs to craft striking visuals that spark curiosity and stick in memory.

As a kid, I was the one turning random Lego pieces into unexpected creations—always experimenting, always curious. That's when creativity first struck, and I've been hooked ever since.

Fast forward to today, I've built a diverse portfolio, collaborating with clients worldwide to bring their bold ideas to life with creativity and clarity.

Off duty, you'll find me diving into minimalism, contemporary art, music, gigs, traveling, and the gym—always chasing inspiration in every corner.

Curious to see what we can build together? Check out my projects or drop me a line.

experience

2022-2024 Senior Illustrator

2016-2022 Illustrator and core team member at Toptal

- Illustrated 200+ technical articles, simplifying complex content and enhancing engagement.
- Created custom illustrations, infographics, and icons for clear communication of technical info.
- Managed multiple projects, balancing feedback and deadlines.
- Integrated AI tools like Midjourney to streamline visual development.
- Helped maintain consistency across Toptal's content library.

2012-2016 Multidisciplinary designer at Gooten

- Designed everything from UI and newsletters to illustrations and merchandise, delivering cohesive visuals across digital and physical platforms.

Notable clients of mine: Mimo, Timestore, Phil Pallen, Mäso od Romana, Huxley Nice Agency, Hento-Toto, IT Impulse, Dôvera ...
